## H.O.F. Pre-Production Guidelines

### House of Flamz (H.O.F.) Pre-Production Guidelines

At H.O.F., we ensure that every artiste and creative professional is fully prepared before stepping into the studio. These pre-production guidelines are designed to help you maximise your creative experience and ensure that recording sessions are smooth, productive and inspiring.

- 1. Review Your Song Lyrics:** Take time to review your lyrics carefully. You may choose to rewrite completely or amend specific lines to refine your song. If you need professional support, you can purchase our [Songwriting and Lyric Amendment Packages](#) in the H.O.F. Store.
- 2. Select Your Instrumental:** Choose the instrumental or beat that best suits your song's genre and vision. We offer a variety of custom and pre-produced instrumentals available for purchase.
- 3. Prepare Your Voice:** Ensure your vocals are performance-ready. Practice consistently, stay hydrated and avoid strain. Warm-up exercises and breathing control will help. Organic tips include drinking room-temperature water, resting your voice and practicing vocal scales.
- 4. Vocal Training:** If you need to strengthen your delivery, control, or singing technique, consider booking a vocal training session with our certified coaches before your studio session.
